Crossing Borders Academy at Holy Trinity Episcopal School 2010-2011

[Crossing Borders](#) offers Spanish Immersion Toddler and Pre-K as well as Dual-Language Kindergarten through our Academy program. The Crossing Borders Academies use research proven techniques, experienced teachers with dynamic curriculum and instruction to jumpstart your child's academic career. At [Crossing Borders Academy](#) learner-centered instruction is combined with Spanish immersion and dual-language methodologies to give your child a world-class education.

Spanish Immersion for Toddlers and Pre-K is an ideal setting for any parent wanting to develop their child's second language in an effortless and natural way. Our Toddler and Pre-K students follow a challenging and engaging preschool curriculum. Our highly experienced and native Spanish-speaking teachers present all instruction in Spanish with minimal English support. Our program is effective for English speaking children whose parents want to develop second language skills, or for Spanish speaking children whose parents want them to learn academic Spanish.

Dual-language is the world's standard for educating our future leaders. The [CBA program](#) is engaging and accessible to both native English and Spanish speakers. Our students are held to the highest academic standards while developing their linguistic abilities. Students who participate in dual language and immersion education programs receive the same curriculum and instruction presented in typical private early childhood education programs, but with the added outcome of bilingualism and multicultural awareness.

[Crossing Borders](#) has been in the language education business for going on nine years. Our founder, Elvia Taylor, started the company with the simple goal of wanting to help people improve their lives through language, communication and cultural education. From those modest beginnings [Crossing Borders](#) has pioneered second language education for children in the Greater Houston Area. [CB](#) provides the only continuous after school Spanish and French programs for kids and during the last two years has developed and implemented an effective and dynamic Spanish Immersion program for toddlers and Pre-K children.

[Crossing Borders Academy's Vision and Goals](#)

[Crossing Borders Academy](#) strives to instill in our students a love of learning, a passion for language and an internalization of our multicultural society. As the world changes, all the while getting "smaller", we are challenged to embrace this newfound community. [Crossing Borders Academy](#) prepares students to be dynamic, successful members of the global community. [Crossing Borders Academy](#) is dedicated to multi-lingual education. While bilingualism is an overall goal of the [CBA](#) programs, it may not be the greatest outcome. Children who are educated in more than one language show higher cognitive abilities, with a greater understanding of complex concepts and the ability to more easily link ideas.

[Holy Trinity](#) already offers its student a world-class preparatory education, preparing them for success at the university level and beyond. So, it is a natural step that [Crossing Borders](#) and [HTES](#) would want to partner in order to provide this new and unique program to our students.

During this first year [CBA](#) plans to offer Spanish Immersion for a Toddler and Pre-K program, as well as a Spanish/English Dual-Language program for Kindergarten students. These programs would form the base of a Spanish language program with the long-term goal of providing students with an elementary International Baccalaureate. Based on the Spanish program's success, [CBA](#) has hopes to expand the academy to include Mandarin and French language programs as well.

[Crossing Borders](#) is excited to be working with [Holy Trinity Episcopal School](#) to offer these exciting new programs. [Crossing Borders](#) is also offering a Spanish summer camp in association with [HTES](#) and the [YMCA](#). Our Spanish summer camp provides students an excellent opportunity to develop basic Spanish conversation skills in a fun and friendly environment. [CB](#) looks forward to working with Holy Trinity and becoming a part of this great school and learning family.
